AMENDMENT

DEAR SIR:

In response to the Office Action mailed May 7, 2002, please reconsider the above-identified patent application in view of the amendments and remarks presented hereinafter.

A. In the claims:

At public
~~(Amended). In a system comprising an interconnect and a plurality of modules connected to said interconnect for putting packets of information onto the interconnect, wherein each packet comprises a number of fields containing information, a circuit comprising:~~

~~circuity for receiving at least part of said information;~~
~~circuity for determining if said at least part of said information satisfies one or more conditions; and~~
~~circuity for performing one or more actions in response to the determination~~
